To Whom It My Concern,

REFERENCE - ITALSTEEL W.A.

Broad Construction has enjoyed a close and successful working relationship with Italtsteel over a long period of construction in Western Australia.

Broad is a fully diversified commercial construction and property development group. Our company name represents the range of services we provide to the construction industry and, without any sacrifice to safety and quality, Broad continues to deliver leading projects across the country.

This would not be possible without the support and provision of quality services from companies such as Italtsteel. Having provided Broad with a range of steel work across a number of WA projects, Italtsteel's professionalism has helped to not only meet, but exceed the client's expectations in project delivery.

Broad continues to work with Italtsteel and I am happy to recommend the work done for us as an example of the quality provided by this proudly Western Australian company.

Kind regards
