Italsteel W.A. - testimonial

We take great pleasure in providing this reference on behalf of Pyramid Constructions (WA) Pty. Ltd. for Italsteel W.A. as a testimonial for the working relationship we have developed over the past 10 years.

Italsteel has over the time of our association demonstrated a great regard for our relationship by way of their very professional and technically well versed approach to any types of projects that we have undertaken together.

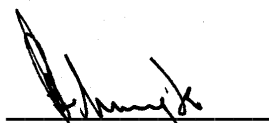

Structural Steelwork, being an important and integral element of any project, requires a competent team of experts to detail, fabricate and deliver. From our point of view it is imperative that all elements of this part of the process are well communicated and any issues addressed in a mature and constructive manner.

Equally, it is a requirement that at all times the site safety and programme are observed and adhered to, to ensure a smooth and co-opertive approach of undertaking such activities on site. On this note, we are pleased to inform anyone, that Italsteel has fulfilled these expectations at all times and even beyond the industry standards by their manner of systematic and thorough approach that helps all parties concerned to achieve a better outcome.

I have no hesitation in recommending Italsteel's services to anyone interested to engage them on any project.

I hope you wind all information usefull, however, should you wish to discuss this letter further, please do not hesitate to contact me.

Best Regards,
Pyramid Constructions (WA) Pty. Ltd.

Jerry Masaryk
Managing Director
